**Xtaero Boats bringing the Xtaero Bodega 24 Sportfishing Boat  
to the 2016 Seattle Boat Show.**

*Seattle, WA — o 24 Bodega* — Today Xtaero Boats confirmed that the much talked about and anticipated Xtaero 24 Bodega will be on display to the public for the first time ever. It's an all new sport fishing platform designed using the latest technology into hull form with deep vee and full pilothouse. Xtaero Boats has been written up in California Sportsman Magazine, Fish Alaska Magazine and bdoutdoors.com and will be in Northwest Sportsman Magazine in January 2016. The o 24 Bodega was designed in response to strong demand in the 22-foot to 24-foot outboard class of aluminum boats. "We wanted to make a boat that delivered superior performance measured in cockpit space, cabin height, smooth ride in rough seas and freeboard." said Travis Brandt, President of Xtaero Boats.

"Up until this 2016 Seattle Boat show we've been selling our boats, building and delivering them to private customers in Alaska who sought us out because of our significant value in a heavy gauge all welded aluminum boat that is affordable." Says Chris Larsen, Operations Manager for Xtaero Boats.

The Xtaero 24 Bodega at the show will feature a 300hp Suzuki outboard, Garmin Electronics, three large below deck fish holds, wallas heater, fully enclosed cabin and much more.

Since 2012, Xtaero Boats manufactures semi-custom aluminum all welded boats using the most advanced multi-surface development software available. Based in Washington State the
