HEADLINE: STABICRAFT 2750 CENTRECAB HITS US SHORES

Subhead: Stabicraft's brand new 27.5 foot offshore model unveiled at Seattle Boat Show 2017

Seattle, Washington: Stabicraft Marine have just unleashed the 2750 Centrecab on the Pacific Northwest, a vessel designed and tested in an equally rugged part of the world, the South Pacific otherwise known as 'The Roaring Forties'.

The 2750 Centrecab was designed to do one thing seriously, fish. And fish hard. At 27.5 feet long and boasting a full walk-around center cabin this boat has everything you need to go offshore. Equipped with Stabicrafts infamous 'life-ring' – sealed air-tight chambers surrounding the hull – you can be sure of unparalleled performance and peace of mind.

The 2750 Centrecab has a huge 132 gallon fuel capacity, fully lockable cabin, internal seating for 6 and a full v-berth area for overnighting if required. It's your ultimate offshore machine allowing you to adventure with confidence.

About Your Company: Founded in 1987, Stabicraft Marine is the largest trailerboat manufacturer in New Zealand and has been delivering exceptionally safe, strong and stable boats to US customers since the mid-nineties. Stabicraft's high performing hulls have been successfully built around a large sealed aluminum chambered 'life-ring' that runs around the perimeter of every vessel. The 'life-ring' not only offers a virtually unsinkable vessel but offers unparalleled stability at rest making you and your family's journey on the water a much more comfortable one.
